

'Til the light burns down

Performed by The People People Band
Lead vocal performed by Evan Dean
Lyrics and music by Evan Dean
Arranged and recorded in Brisbane 2005

I am disarmed from the moment
That you look upon me
And I am charmed by your subtle smile
That dances skyward
Your grace is fine
Simple and it's complex at the same time
I see you glow
But there're things I just want you to know

Refrain:

I don't know why I can't run from you
If I fall I don't need catching
There's no pattern to be matching
I was shattered when I saw you
If you want it I'll adore you
'Til the light burns down

I can explain
Only part of what I'm feeling right now
There are some things
I will never find the perfect words for
And all I want is to sit in silence
Watch you shimmer
The slightest touch
It warms me even as I shiver
Back to refrain

If I fall I don't need catching
There's no pattern to be matching
I was shattered when I saw you
If you want it I'll adore you
'Til the light burns down
Repeat
